OLD BUSINESS

BID AWARDS

Solicitor Grimm recommended the Board, on behalf of Purchasing and Court Administration, award the bid contract for a Courts Case Management System to Thomson Reuters, Eagan, Minn. at an estimated amount of \$1.565 million for upfront costs plus \$350,000 fee per year for maintenance and support. American Rescue Plan Act funds will be utilized through 2024.

“Before she casts her vote, Mrs. Vaughan wanted to provide some information on this. In 2019, and this was the first time in 24 years, Mrs. Vaughan convened the head directors with the newly elected officials that have not taken office. This was to make sure they were well equipped to understand government and what they needed to do to be successful. Since January 2021, they have had a number of Court orders the Court had deemed necessary in order to continue with the work that they do. On January 15, to the Clerk of Courts, Prothonotary and the Register of Wills, administrative procedures for filing offices. We had another one May 7, to the Clerk of Courts; May 28, to the Clerk of Courts; July 1, to the Clerk of Courts; July 6, to the

Register of Wills; July 22, to the Register of Wills; August 5, to the Register of Wills. The Court has had a number of issues and frankly a number of issues completing the work within the judicial system. With that being said and after speaking to President Judge DiSalle and Judge Lucas, they have collectively over 40 years of experience in the administration of justice. Mrs. Vaughan has spent a great deal of time reviewing requests for proposals on software systems that would work for the Courts, an integrated software system. The three goals are for automation, automation, and access for the public. Some of the highlights they are voting on in a reduction in physical storage. We have spent a great deal of money storing documents for Washington County. It's around \$60,000 per year. This will reduce this burden. Also, this is believed to reduce litigation time and costs. If you have ever used our judicial system, you will know that there is a backlog, and people have waited a great deal of time for the administration of justice. It will reduce errors and reliance on the filing offices. It will reduce the chances to commit errors and allows for e-filing and automation for the users. This is why they went to the bar association to receive their input. This will also reduce staff on an annual basis in the Prothonotary's Office because of the automated filing. This will provide a greater amount of public access. This report we received, along with a meeting with the judges, it also guarantees configuration for the Register of Wills office with integration. This is not a stand-alone system that can be used throughout our judicial system.

Moved by Mr. Sherman, seconded by Mr. Maggi, approving the contract with Thomson Reuters.

Roll call vote taken:

Mr. Sherman – Yes; Mr. Maggi – Yes; Mrs. Vaughan – in confidence I vote yes.
