Diabetes Management

TAKE CONTROL
OF YOUR DIABETES.

Take control of your diabetes once and for all with Diabetes Management. This virtual solution gives you the personalized support you need to better manage your diabetes. And that can lead to better health and all the good things that come with it – like having more energy to do the activities you enjoy.

There is no cost for most members. If you have a qualified high deductible plan, you may have to pay out of pocket for some services within this solution until you meet your deductible. To determine if you have any costs for care, you can call the Member Service team at the number on the back of your ID card.

Here's what you get with Diabetes Management:

- A no-cost welcome package mailed to your home that may include a free smart glucometer, an A1C kit, and unlimited test supplies.
- If you have a high A1C or other complications, you may be eligible for a wearable continuous glucose monitor (CGM) that automatically takes readings 300 times a day with no finger prick. (We can help you figure out if you're eligible.)
- A dedicated care lead who will check in regularly to offer support and connect you to a personal care team that includes your primary care provider (PCP) and endocrinologists.
- An interactive app that provides virtual support and collects data from connected devices to make managing diabetes easier.

By participating in Diabetes Management, you could better manage your diabetes, see improved clinical results, and lower your risk of complications.

This is big. So big. Equipment, personalized support, and the convenience of at-home care. Plus all the time you get back because managing your diabetes just got a whole lot easier.

Be on the lookout for more information on how to get care at the beginning of your plan year.
