

Learning Facebook

- ❖ Using Facebook messenger
- ❖ How to react to posts
- ❖ How to share posts
- ❖ How to post photos and videos
- ❖ Other important things to remember

Using Facebook Messenger

Click the icon in the upper right-hand corner of your screen that looks like the above icon. A screen like what is shown to the left will appear. Once you get to that screen, you'll be able to search for your friends and message them privately and send photos and videos!

How to React to Posts

Under a post you will see a white thumbs up. If you touch that white thumbs up button, you will “like” that post and the thumb will turn blue.

Hold down on the thumb, and you can react with a heart for “love”, a laughing face for something funny, a shocked face for “wow”, a crying face for “sad”, an angry face for “angry”, a face holding a heart to show care, and a blue thumbs up to just show that you like it.

How to Share Posts

Under a post you will see a curved arrow that says Share, touch the arrow. A box will come up with who and where you can share this item. Select which option you wish to use.

How to Post Photos and Videos

On the top of your screen, you will see a box reading, “What’s on your mind?”. Click the box. There you will be able to type an update, as well as post a photo/video. When you click on photo/video it will pull your camera roll up and there you will be able to upload the photo/video you choose to post. After you choose what you want, click the blue box in the top right corner that says POST.

Other IMPORTANT Things to Remember

- ❖ **Watch out for scams!**
- ❖ **Be mindful of what you are posting and sharing**
- ❖ **Do not post personal information**
- ❖ **Remember the internet is FOREVER**

Tips For Using Your Tablet/Phone

- ❖ How to delete photos/videos
